Step-by-Step Instruction Guide

If you need help, just ask.

1. Use a piece of paper, 15 cm square (6 in. square).
2. Fold one corner to meet the opposite corner, making a sharp crease.
3. Fold this triangle in half at the center, making a sharp crease.
4. Open this fold back to the original triangle.
5. Fold the top corner down to the base of the triangle on one side.
6. Fold each side of the triangle to the centre so that the points meet, making a sharp crease on the folds.
7. Unfold these last folds.
8. Fold the left point of the triangle up to the top point.
9. Repeat the last step on the right side, to create a diamond shape.
10. Fold the right side of the last folded piece over the horizontal fold from step 5 and tuck it inside, making a crease across the fold, to create a pocket.
11. Repeat the last step on the left side.
12. Turn upside down.

13. Now add features to your origami bat.

14. Slip your bat over the corner of your page to save your place!

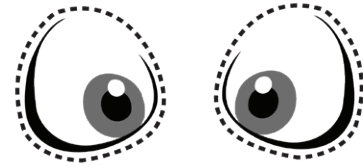

FRANKIE BOOKMARK

Use these templates to cut out 2 wings, 2 fangs
and 2 ears or just “wing it” (ha ha!)

Cut out these eyes to use on your
bat bookmark, or use googly eyes
if you have them, or draw your own.

Eyes

Frankie Bookmark Final Look

REMEMBER, you are allowed to
make your own look!
